### 3. HAZARD IDENTIFICATION

#### Main Hazards
- Irritant
- Combustible
- Nervous System
- Skin
- Eye
- Kidney
- Liver

#### Routes of Entry
Inhalation, ingestion, eye and skin contact, absorption.

#### Carcinogenic Status
Not considered carcinogenic by NTP, IARC and OSHA

#### Target Organs
- Nervous System
- Skin
- Eye
- Liver
- Kidney

#### Health Effects - Eyes
Liquid or vapor may cause pain, transient irritation and superficial corneal effects.

#### Health Effects - Skin
Material may cause slight irritation on prolonged or repeated contact. Repeated and/or prolonged contact may lead to: - drowsiness - liver damage - kidney damage

#### Health Effects - Ingestion
A large dose may have the following effects: - drowsiness - liver damage - kidney damage

#### Health Effects - Inhalation
Exposure to vapor at high concentrations may have the following effects: - irritation of nose, throat and respiratory tract - liver damage - kidney damage
3. HAZARD IDENTIFICATION (continued)

4. FIRST AID MEASURES

First Aid - Eyes
Immediately flush the eye with plenty of water for at least 15 minutes, holding the eye open. Obtain medical attention if soreness or redness persists.

First Aid - Skin
Wash skin with water. Obtain medical attention if blistering occurs or redness persists.

First Aid - Ingestion
Wash out mouth with water. Obtain medical attention.

First Aid - Inhalation
Remove from exposure. If there is difficulty in breathing, give oxygen. Seek medical attention if symptoms persist.

Advice to Physicians
Treat symptomatically.

5. FIRE FIGHTING MEASURES

Extinguishing Media
Use water spray, foam, dry chemical or carbon dioxide. Keep containers and surroundings cool with water spray.

Special Fire-Fighting Procedures
This product may give rise to hazardous vapors in a fire. Vapors can travel a considerable distance to a source of ignition and result in flashback.

Unusual Fire & Explosion Hazards
Pressure may build up in closed containers with possible liberation of combustible vapors.

Protective Equipment for Fire-Fighting
Wear full protective clothing and self-contained breathing apparatus.

6. ACCIDENTAL RELEASE MEASURES

Spill Procedures
Contain and absorb using earth, sand or other inert material. Transfer into suitable containers for recovery or disposal. Finally flush area with plenty of water.

Personal Precautions
Wear appropriate protective clothing. Wear respiratory protection. Eliminate all sources of ignition.

Environmental Precautions
Prevent the material from entering drains or water courses.

7. HANDLING AND STORAGE

Handling
Use local exhaust ventilation. Avoid contact with eyes, skin and clothing. Keep container tightly closed when not in use.

Storage
Store in original containers. Store away from sources of heat or ignition. Storage area should be:
7. HANDLING AND STORAGE (continued)

- cool - dry - well ventilated - out of direct sunlight

Other

Proprietary photoresist film contains approximately 2-4% of 2,3,4-trihydroxybenzophenone (THBP), which may sublime during soft-bake or hard-bake processing. THBP has low acute toxicity (LD50 >5g/kg). Contact with eyes, skin or mucous membranes causes irritation.

To prevent accumulation of THBP on equipment surfaces and ventilation ducts, preventative maintenance program including regular cleaning should be implemented. Wipe surfaces using an appropriate cleaning solvent when possible. Provide adequate general or local exhaust ventilation during the cleaning process. In situations where this is not possible or where solvent or dust concentrations become excessive, use an air purifying respirator with an organic vapor/toxic particulate cartridge. When cleaning residual THBP, wear protective gloves and adequate protective clothing to prevent skin contact. Practice good personal hygiene to prevent accidental exposure. Clean all protective clothing and equipment thoroughly after each use.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Occupational Exposure Standards

1. Electronic grade propylene glycol monomethyl ether acetate

Manufacturer recommends 30ppm 8h TWA and 90ppm 15 min STEL.

2. cresol

ACGIH: TLV 5ppm (22mg/m3) 8h TWA. OSHA: PEL 5ppm (22mg/m3) 8h TWA. UK EH40: OES 5ppm (22mg/m3) 8h TWA. Can be absorbed through skin.

Engineering Control Measures

Engineering methods to prevent or control exposure are preferred. Methods include process or personnel enclosure, mechanical ventilation (local exhaust), and control of process conditions.

Respiratory Protection

Respiratory protection if there is a risk of exposure to high vapor concentrations. The specific respirator selected must be based on the airborne concentration found in the workplace and must not exceed the working limits of the respirator.

Hand Protection

Butyl rubber gloves.

Eye Protection

Chemical goggles.

Body Protection

Normal work wear.

9. PHYSICAL AND CHEMICAL PROPERTIES

<tr>
<td>Persistence/Degradability</td>
<td>The product is partially or slowly biodegradable. BOD20 greater than 40%</td>
</tr>
<tr>
<td>Bio-accumulation</td>
<td>No data.</td>
</tr>
</tbody>
</table>
12. ECOLOGICAL INFORMATION (continued)

Ecotoxicity

The product is rated as practically non-toxic to aquatic species. Tests on the following species gave a LC50 of 161mg/litre: - fathead minnows
Tests on the following species gave a LC50 of 408mg/litre: - daphnia

13. DISPOSAL CONSIDERATIONS

Product Disposal

Incineration is the recommended method of disposal. Dispose of in accordance with all applicable local and national regulations.

Container Disposal

Labels should not be removed from containers until they have been cleaned. Empty containers may contain hazardous residues. Dispose of containers with care.

14. TRANSPORT INFORMATION

DOT Hazard Class: Not Regulated per 49 CFR 173.150(f)(2)
UN Proper Shipping Name: Flammable liquid, n.o.s.
UN Class: (3) Flammable Liquid
UN Number: UN1993
UN Packaging Group: III
N.O.S. 1:
N.O.S. 2:
Subsidary Risks: None.
ADP/RC Substances Identification Number: CLASS 3 - 31(c)
CERCLA/RQ: Cresol (100#)
Marine Pollutant: No.

15. REGULATORY INFORMATION

TSCA Listed: Yes
TSCA Exemptions: D.2.B B.3
WHMIS Classification:
MA Right To Know Law:

California Proposition 65: This product does not contain materials which the State of California has found to cause cancer, birth defects or other reproductive harm.

SARA TITLE III-Section 311/312
Categorization (40 CFR 370):
SARA TITLE III-Section 313 (40 CFR 372):

Immediate, delayed, flammability hazard
This product does not contain a chemical which is listed in Section 313 at or above de minimis concentrations.
15. REGULATORY INFORMATION (continued)
