Other: Contains no other ingredients in concentrations >.1% that are now known to be hazardous as defined by OSHA.

3. HAZARDS IDENTIFICATION

Emergency Overview: Colorless Liquid. Flammable material. Volatile liquid with ethereal and faint sweetish odor. Overexposure may cause dizziness and loss of concentration. At higher levels, CNS depression and cardiac arrhythmia may result from exposure. Vapors displace air and can cause asphyxiation in confined spaces. At higher temperatures, (>250°C), decomposition products may include Hydrofluoric Acid (HF) and carbonyl halides.

HMIS Classification: Health: 1 Flammability: 2 Reactivity: 0
NFPA Rating: HEALTH 2, FLAMMABILITY 2, REACTIVITY 0

4. FIRST AID MEASURES

Eye Contact: Liquid contact can cause severe irritation and frostbite. Mist may irritate.
Ingestion: Ingestion is unlikely. Should it occur, discomfort in the gastrointestinal tract from rapid evaporation of the material and consequent evolution of gas would result. Some effects of inhalation and skin exposure would be expected.
Inhalation: If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult. At high levels, cardiac arrhythmia may occur.
Skin Contact: For exposure to liquid, immediately warm frostbite area with warm water (not to exceed 105°F). In case of massive exposure, remove clothing while showering with warm water. Get medical attention. Irritation may result from a defatting action on tissue

5. FIRE FIGHTING MEASURES

Flammable Properties
Flash Point °F (°C): <-58°F (Liquid)
Flash Point Method: Not Applicable
Flammable Limits in Air - Lower (%): 3.7
Flammable Limits in Air - Upper (%): 18.0
Autoignition Temperature °F (°C): 455°C
Extinguishing Media: Use extinguishing media appropriate for surrounding fire. Use water spray to keep containers cool that are exposed to heat or flames.
5. FIRE FIGHTING MEASURES

Protection Of Fire-Fighters:
Wear approved positive-pressure self-contained breathing apparatus and protective clothing. Warning!!

Special Fire-Fighting Procedures:
Contents under pressure. Container may rupture under fire conditions. Decomposition may occur.

Hazardous Combustion Products:
Exposure to fires could cause containers to rupture or explode. Formation of dangerous gas/vapors in case of decomposition. Contact with certain reactive metals may result in formation of explosive or exothermic reactions under specific conditions (e.g. very high temperatures and/or appropriate pressures).

Aerosol Comments:
NFPA Level 1 Aerosol

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions:
Wear appropriate protective clothing and equipment to prevent skin and eye contact. Avoid breathing vapor. When airborne exposure limits are exceeded use NIOSH approved respiratory protection equipment appropriate to the material and/or its components.

Spill Procedures:
Wear protective equipment specified. Avoid all sources of ignition; heat, sparks and open flames. Use Halogen leak detector or other suitable means to locate leaks or check atmosphere. Keep upwind. Evacuate enclosed spaces and disperse gas with floor-level forced-air ventilation. Exhaust vapors outdoors. Do not smoke or operate internal combustion engines. Evacuate unprotected personnel

Action to be taken if material is released or spilled:
Increase area ventilation. Do not puncture or incinerate container. Contents under pressure.

Environmental Precautions:
Do not allow entry to the atmosphere. Recover, reclaim or recycle when practical.

7. HANDLING AND STORAGE

Handling and Storage:
Use ground strap. Avoid breathing vapors, if exposed to high vapor concentration, leave area at once. Avoid contact with skin and eyes. Use only in a well ventilated area. Do not reuse this container. CAUTION: COMPRESSED GAS. Keep away from heat and open flame. Do not puncture, incinerate or store above 120 F. Do not store in passenger compartment of automobile.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering Controls:
Local exhaust ventilation as necessary to maintain exposures to within applicable limits. Showers. Eyewash stations.

Eyes:
Chemical goggles; also wear a face shield if splashing hazard exists.

Skin Protection:
Avoid skin contact. Wear protective clothing and gloves.

Respiratory Protection:
Use in a well ventilated area. An approved respirator (i.e. NIOSH, etc.) should be worn when exposures are expected to exceed the applicable limits.
